

The chart on the next page is to encourage your students 4th grade and up to read their Bibles everyday. They write the scripture reference and the time of the day they read it. It is a way for them to develop a habit reading the Word on a regular basis.

It will be helpful if you will assign the verse to be read each day. Just make a list of one verse to a whole chapter for each day of the week concerning whatever materials you are studying at the time. Or if you prefer you can do verses that cover the miracles of JESUS or His parables if you are doing the Life of CHRIST for the quarter. You decide what you believe will be the best for they students you have.

Don't forget to pray and keep the LORD on your side as you teach these precious souls under your care.
