

Reviewing GOD's Word

It maybe that you have reviewed your lesson in other sections of your class, but it is never wrong to review, review, review. Until our students understand and KNOW the materials presented our job is not complete. Review is extremely important! Just as in school multiplication tables become second nature to our children so should the Word of GOD be on the tip of their tongues. Our children cannot learn too much of GOD's will. It simply is not possible to know too much about GOD and His will for us! When temptations come, when fear rears its ugly head, when pain is present with our child, the knowledge of GOD and His word in their hearts will be there to support and encourage them as they make their decisions. Wisdom cannot be cultivated without true knowledge of GOD and we want our children to grow to make wise choices. Repetition is vital to cultivate the wisdom of GOD in the hearts and minds of our precious children.

A few suggestions for use in review:

- Overhead projector
- Flip charts
- Black lights
- Games (jeopardy)
- Videos
- Magnetic boards
- Questions & answer sheets
- Puppets
- Flannel boards
- Skits

The way to review can be nearly endless. Saying a memory verse in class in unison can be an excellent way to review and get that information into their minds. Sometimes the best way to review is to simply use the same things over and over again as you cover the precious words of GOD with your students. What they learn as children will stay with them all of their lives. When they are grown they will remember much of what was studied and maybe not even remember why they have the information. Let's arm our children with the protection they need to fight the wiles of the devil.

"Thy word have I hid in my heart that I might not sin against Thee." Psalm 119:11
