

Clever Uses for Bounce:

- There are probably many other places that you can think of to deodorize or remove static cling from by using this common laundry product. Please test all items first to assure safe use. If you have allergies, be sure you are not sensitive to Bounce before using.
- Thanks to Dorothy for her list of suggested uses for the Bounce dryer sheets. Several of them are listed below:
- Yellow jackets do not like the smell of Bounce. Just put one in your pocket and head outside to work or play, great for golfers as well.
- Bounce is also a repellent for mosquitoes. My husband used them when he went to India one summer and said they worked. He just kept one in his pocket when outside. (tkg)
- Ants are chased away by the smell of Bounce just lay a sheet where they come in and it repels them. (I plan to try this one, tkg)
- They also repel mice. Spread sheets around the foundation areas of your home, or by your camper, or your car; Dorothy says they will not enter.
- Use the used sheets to dust your computer or TV screens to help eliminate static electricity.
- Dorothy says Bounce will also dissolve soap scum from your shower doors. Just clean with a sheet of Bounce.
- Put a sheet of Bounce in a drawer or in a closet to freshen the air. Freshen a musty suitcase by placing one inside an empty case before storing. Also can be placed under the front seat of your car to freshen the air.
- Bounce can be placed inside the folds of a tent or sleeping bag when preparing to store to keep them smelling fresh.
- Try deodorizing your shoes & sneakers by placing one inside overnight.
